

The Work Placement Program

Senior high school students studying a Certificate II in Primary Industries as part of their HSC MUST attend a business for one week to gain practical experience, skills and knowledge about the industry. This is a compulsory component of their course.

They learn to communicate with staff and supervisors. Employers offer students a range of industry activities that suit their resources and their business.

Benefits of the Work Placement Program

- Raise your profile within the community
- Access potential part-time or full-time employees
- Develop training programmes and supervisory skills for your staff
- Participate in special events and receive media coverage

Could you offer students experiences in one or more of the following:

- Practising workplace communication
- Working effectively as part of a team
- Gaining knowledge of the industry
- Applying safe working practices
- Planning daily work routines
- Feeding livestock
- Preparing cattle for competition
- Planting crops by hand
- Recognising plants, products and treatments
- Providing nursery care
- Carrying out basic field duties
- Cleaning and maintaining the work environment
